Berlin, Germany
sigfoxconnect
Join the IoT revolution

About Sigfox Connect

Dear visitors,
Since 2010, Sigfox has embraced the mission to “give voice to the physical world “, by connecting objects together. Today, we take a step further and start connecting people towards a common goal: create tons of opportunities around the Internet Of Things!

Welcome to Berlin as part of the Sigfox Connect experience! During these two days, you will discover incredible innovations, visit an exceptional exhibition area, as well as a fantastic line-up of speakers both on the main conference and on the technical track.

This event gathers the entire Sigfox ecosystem, including worldwide Sigfox Operators, clients, device makers, module makers, distributors, start-ups, universities and many others.

Sigfox Connect is the place where Technology & Business converge to create a smart connected world!

Welcome to the IoT Revolution!

Welcome to **Sigfox Connect 2018**

What are you going to experience?

Expo

Explore our exhibition area and meet the most powerful, mature and global IoT ecosystem in action. Experience all the Sigfox-enabled devices, components, platforms and solutions available now! Check out the companies that are making things come alive with Sigfox.

Conference

Starting with on-staged Sigfox founders, listen to a fantastic lineup of inspiring leaders, thinkers & innovators. Find out how the IoT is already shaping the future, impacting businesses, environment and society.

Technical Track

Discover the technical side of Sigfox with our brand new technical track: Sigfox Spark.

Networking

Enjoy this unique opportunity to meet the entire Sigfox Ecosystem in one single place and create business interactions.

Sigfox Expert Zone

Get the chance to discuss with all our Experts.

Organizational information you need to know

Registration time
25th October
From 8:00 a.m.

Exhibition time
25th October
8:30 a.m. - 6:00 p.m.

Conference times
25th October
9:00 a.m. - 12:30 p.m.
2:00 p.m. - 5:00 p.m.

Get Connected with the Expo Wi-Fi

Please find the password on your badge. Wi-Fi is available throughout the venue but please note that connection and speed cannot be guaranteed.

Conference Program

Sigfox
CONNECT

Conference Program

Thursday October 25th | Main Stage: Arena Halle

9am - 9:45am — **The Future is now**

Speakers

Ludovic Le Moan (CEO, Sigfox)
Christophe Fourtet (CSO, Sigfox)

9:45am - 10:30am — **Exponential connectivity and the future of humanity**

An inspiring session with Futurist Gerd Leonhard

Speakers

Gerd Leonhard (Visionary Thinker)

10:30am - 11am — **Data is a World Heritage**

How Data is a powerful answer to anticipate chaos

Speakers

Marion Moreau (Director, Sigfox Foundation)
Brian Bosire (CEO, Hydro IQ)

11am - 11:30am — **IoT generation to prepare the next WhatsApp!**

Adoption is a way to emancipate people from everywhere

Speakers

Raouti Chehih (Head of Adoption & Tech Evangelisation, Sigfox)

11:30am - 11:55am — **Asset tracking: towards the first billion connected objects**

An inspiring focus with experts and innovators

Speakers

Laetitia Jay (CMO, Sigfox)
Christopher Fuss (Head of DHL SmartSensor, DHL)
Ludger Bredenstein (Connected Industry Manager, Bosch)
Michel Savini (Senior Manager, Argon)

11:55am - 12:20pm — **Sigfox for Supply Chain**

How they take benefits from Sigfox technology

Speakers

Laetitia Jay (CMO, Sigfox)
Julien Quart (Head of Logistics Engineering, Michelin)
Emmanuel Flahaut (CTO, Oscaro)

12:20pm - 2pm — LUNCH BREAK

2pm - 2:30pm

OG Standardization: anytime, anywhere, forever

About smallest common denominator of networks

Speakers

Ludovic Le Moan (CEO, Sigfox)
Christophe Fourtet (CSO, Sigfox)
Adarsh Krishnan (Analyst, ABI Research)
Andres Escribano (IoT Global Connectivity Director, Telefonica)

2:30pm - 2:50pm

Energy harvesting: a world without battery

The impossible is becoming possible

Speakers

Dr. Peter Spies (Fraunhofer, IIS)

2:50pm - 3:20pm

Securing the physical & the cyberworld

Decoding session on major issues and solutions

Speakers

Raoul Mallard (CTO, Sigfox)
Mathieu Poujol (Head of Cyber Security, Pac Online)
Dr. Michele Barletta (MindSphere Security Product Manager, Siemens)

3:20pm - 3:40pm

The Internet of Nano-things

Small is beautiful in the IoT!

Speakers

Christophe Fourtet (CSO, Sigfox)
Marco Veneri (Marketing Manager, ST Microelectronics)
Luc Federzoni (Expert in funding RDI CEA Techonological Research)

3:40pm - 4pm

IoT and Jobs creation

A huge opportunity coming to build a disruptive economy

Speakers

Dr. Moritz Hämmerle (Head of Future Work Lab, Fraunhofer Institute)
Paul Papadimitriou (Master of Ceremony)

4pm - 4:30pm

Reshaping the World

The power of data visualization to help us better understand the world

Speakers

Anna Rosling Rönnlund (Vice President, Gapminder Foundation)

4:30pm - 4:45pm

One more thing

Wrap up session with Sigfox CEO, Ludovic Le Moan, and his special guest

Speakers

Ludovic Le Moan (CEO, Sigfox)

Sigfox Spark Program

Thursday October 25th | Technical Stage: Glashaus

10am - 10:45am **Final Sigfox University Challenge**

Speakers

Calvin Hill (PoachLess)
Andrei Floria (Myriver)
Celia Garrido-Hidalgo (Logifox)
Luis Eduardo Arenas Deseano (School wardeen)

10:45am - 11:10am **Senior Hacker - My Sigfox Journey**

Speakers

Gael Musquet (Senior Hacker / Sigfox Ambassador)

11:10am - 11:25am **Small messages for huge impacts**

Speakers

Daniel Guevara (Chief Executive IoTNet)

11:25am - 12:05pm **Track all the things!**

Speakers

Ras Lalmy (Managing Partner Sensatag)
João Tacanho (Managing Director US Loka)
Kristoff Van Rattinghe (CEO Sensolus)

12:05pm - 1:30pm LUNCH BREAK

13:30pm - 2pm

Trends in components to drive change & digitalization

Digi-Key, one of the fastest growing distributors of electronic components in the world will give us an overview about what is going on in the component world (battery, antenna, sensors, etc..) especially focusing on digitization and IOT.

Speakers

Hermann Reiter (DIGIKEY Managing Director US)

2pm - 2:50pm

Low Energy is the future

Speakers

Wilfried Dron (CEO Wisebatt)
Thierry Garret (Founder - CTO Moïz)
David Labelle (CEO Moïz)
David Dorval (CEO STIMIO)

2:50pm - 3:20pm

Industrial IoT uses cases powered by IBM cognitive services

Speakers

Christophe Didier (Technical Director IoT France IBM)

3:20pm - 4pm

Christophe Fourtet - IoT, what's coming next ?

Speakers

Christophe Fourtet (Co-founder Sigfox)

D01 Siemens

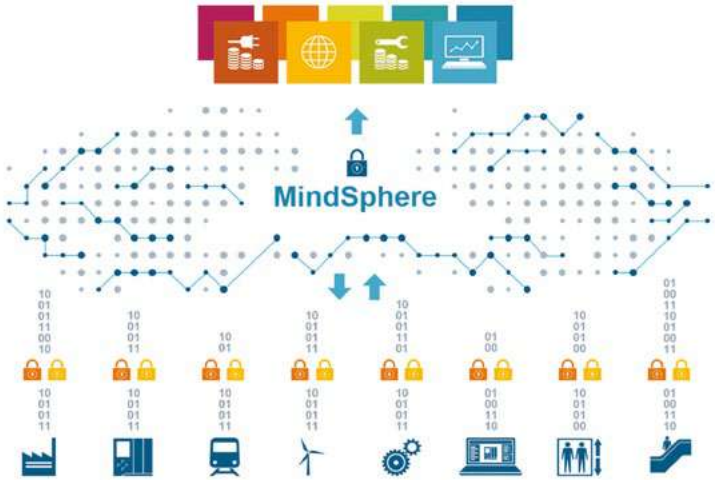

MindSphere is the Internet of Things (IoT) operating system built as a secure and scalable industrial end-to-end solution for everything from connecting products, plants, systems and machines to unlocking your IoT data potential.

SIEMENS

Applications
Asset transparency and analytical insights into machines, plants, fleets and systems.

Open PaaS
MindSphere open PaaS for
scalable, global IoT connectivity and application development with native cloud accessibility.

Connectivity
MindConnect connects products, plants, systems, machines, enterprise applications and legacy databases with a secure plug-and-play connection to Siemens and third- party products and equipment.

Siemens AG (Berlin and Munich) is a global technology powerhouse that has stood for engineering excellence, innovation, quality, reliability and internationality for 170 years. The company is active around the globe, focusing on the areas of electrification, automation and digitalization. One of the world's largest producers of energy-efficient, resource-saving technologies, Siemens is a leading supplier of efficient power generation and power transmission solutions and a pioneer in infrastructure solutions as well as automation, drive and software solutions for industry. The company is also a leading provider of medical imaging equipment – such as computed tomography and magnetic resonance imaging systems – and a leader in laboratory diagnostics as well as clinical IT. In fiscal 2017, which ended on September 30, 2017, Siemens generated revenue of €83.0 billion and net income of €6.2 billion. At the end of September 2017, the company had around 377,000 employees worldwide.

All the solutions you need to develop efficient and secure IoT devices with Sigfox™ connectivity

ST is your ideal partner to quickly design and develop IoT devices that connect to the Sigfox network. Our broad portfolio of products and pre-integrated solutions addresses key IoT device design challenges - energy consumption, security, affordability and time to market.

S2-LP SUB-1 GHz TRANSCEIVER

Ultra-low-power sub-1 GHz transceiver meeting Sigfox requirements and delivering top-notch RF performance and unparalleled energy efficiency.

STM32 MICROCONTROLLERS

A broad portfolio of STM32 32-bit microcontrollers, from ultra-low-power to high performance, offering a rich set of analog & connectivity peripherals.

BROAD RANGE OF SENSORS

A range of compact and low-power motion MEMS and environmental sensors, as well as ranging sensors to add sensing capabilities to any application.

CONNECTIVITY SOLUTIONS

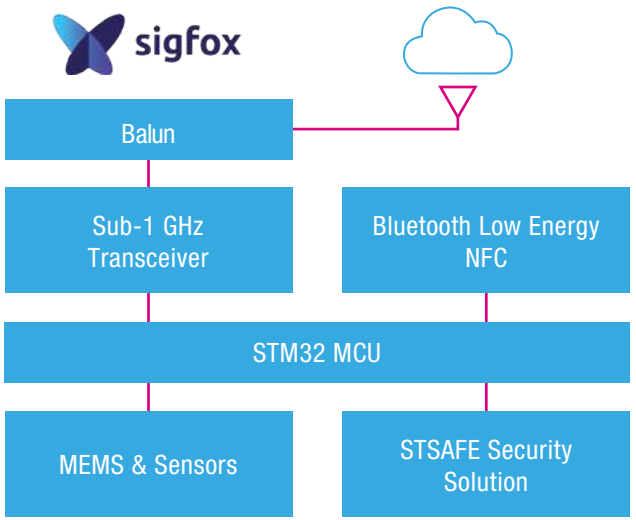

Complementary short-range communication technologies such as industry-leading NFC solutions, ST's BlueNRG BLE processor or STM32WB wireless MCU.

STSAFE SECURE ELEMENT

Dedicated secure element with pre-configured Sigfox ID and keys, enhancing the integrity and confidentiality of transmissions over the Sigfox network.

BALUNS

Baluns designed for the S2-LP Sub-1 GHz transceiver, for the BlueNRG BLE processor and for the STM32WB wireless MCU.

SL3 Paessler

In 1997 Paessler revolutionized IT monitoring with the introduction of PRTG Network Monitor. Today over 200,000 IT administrators, in more than 170 countries, rely on PRTG to monitor their business-critical systems, devices and network infrastructures. PRTG monitors the entire IT infrastructure 24/7 and helps system administrators to seamlessly solve problems before they impact users.

Our mission is to empower technical teams to manage their infrastructure, ensuring maximum productivity and 100% uptime. We build lasting partnerships and integrative, holistic solutions to achieve this vision. Thinking beyond IT networks, PRTG is actively developing solutions in digitization and the Internet of Things. Over 200 Paessler employees are dedicated to helping organizations and communities around the world ensure computers, networks, and the technology beyond, work reliably at all times.

SL7 BFO Mobility

BFO Mobility GmbH is a spin-off from BrakeForceOne GmbH and focuses on the electrification and networking of vehicle concepts for micro mobility. These include all types of light vehicles (LEV class), as well as novel micro mobility concepts such as e-scooters or monowheels (PLEV class).

BFOMOBILITY
Development services for e-mobility

Anticipating trends, drivers and developments in the market of electrified micro-mobility is well reflected in our latest product innovations such as the BFO ABS system for e-bikes and the electric kick scooter Flynn.

Furthermore BFO Mobility GmbH is committed to looking at e-mobility in its entirety. Therefore we offer our BFO_connect tailored hard- as well as software solutions in combination with a state-of-the-art cloud system. This newly developed eco-system offers maximum flexibility, scalability and reliability for all types of industries and businesses – in particular for IoT devices.

SL8 NXP

NXP Semiconductors N.V. enables secure connections and infrastructure for a smarter world, advancing solutions that make lives easier, better and safer. As the world leader in secure connectivity solutions for embedded applications, NXP is driving innovation in the secure connected vehicle, end-to-end security and privacy and smart connected solutions markets. Built on more than 60 years of combined experience and expertise, the company has 31,000 employees in more than 33 countries and posted revenue of $9.5 billion in 2016.

NXP innocomm
InnoComm Mobile Technology Corp.

InnoComm Mobile Technology Corp., headquartered in Taiwan, offer solutions and professional services to customers, helping them to stay competitive in the fast-changing wireless world. The product portfolio includes system on module, connectivity modules, and 3G /LTE modem modules. The products combined with our wireless expertise and system integration capability have been widely used by portable Android devices, IoT applications and other vertical market products. InnoComm offer customers a one-stop shop solution ranging from mechanical design, hardware and software development, test solutions to final certification.

SL9 Avnet

From idea to design and from prototype to production, Avnet supports customers at each stage of the product lifecycle, guiding today's ideas into tomorrow's technology. With deep expertise in design and engineering, broad line distribution, and integration services, Avnet is uniquely positioned to meet critical time-to-market needs for all types and sizes of customers globally.

Avnet has 600+ suppliers of semiconductors, integrated solutions and electronic components. The company serves 110,000+ customers across such industries as automotive, energy, healthcare, industrial, military and aerospace and telecommunications. In 2016, Avnet acquired Premier Farnell and Hackster.io. Premier Farnell boasts a digital platform of 430,000 members in 36 countries. Hackster.io is an online community that helps users learn how to design, create and program Internet-connected hardware. These acquisitions expanded Avnet's ability to service new markets of engineers, innovators and entrepreneurs with the company's seamless design and supply chain services.

SL10 Alps

Alps Electric Co., Ltd. is a leading global manufacturer of high-quality electronic components for mobile devices, home electronics, vehicles and industrial equipment. With the philosophy of "Perfecting the Art of Electronics" Alps Electric supplies over 40,000 different components to about 2,000 companies all over the world.

Alps Electric Europe GmbH, a subsidiary of Alps Electric Co., Ltd., was established in 1979. Since 2013 the European Head Office has been located in Munich and as such co-ordinates the Sales, Marketing and Product Engineering activities of our offices in Dusseldorf, Paris, Milton Keynes, Gothenburg and Milan, as well as the production activities of our manufacturing site in Dortmund.

As a major player in the Automotive, Smartphone and Industrial Business Alps ranks among the top players in HMI, Connectivity and Sensing world-wide which along with our competencies in production scalability, professional packaging design and clever Firmware puts us in a pole position for professional industrial IoT device solutions.

1 ALTYOR

Design house

ALTYOR is a French company specialized in Design, Manufacturing, Distribution of IoT and Smart Electronics. The company has produced 500 k smart products in 2017. At Sigfox Connect Berlin we will be showcasing ClicMe a stand-alone multipurpose smart button. It can request a customer callback, trigger an alarm, place an order, send a text message, basically it can do almost anything you want. ClicMe has two click areas, up to four configurable actions (single and/or double click), a premium soft touch, a magnet for placing it everywhere and an entirely customizable housing to suit all kind of businesses.

26 Roambee Corporation

Solution provider

The Roambee Corporation (www.roambee.com) is transforming supply chain logistics and asset management outside the four walls of global enterprise. Founded in 2013, Roambee provides solutions for real-time visibility, tracking, and condition monitoring for goods and assets.

United States | www.roambee.com | Claudia Hudson | chudson@roambee.com

27 IOTBOT Co Ltd.

Device maker

IoTbot Logistics Consortium specializes in logistics IoT service, providing customers with innovative IT, security, and efficiency of logistics by using the global tracking control IoT technology dedicated to the logistics field.

Korea | www.iotbot.co.kr | Byung Kang, PARK | iotbot.bkpark@gmail.com

27 IOTHINK SOLUTIONS

IoT Platform Provider

We will present our IoT plateform called KHEIRON Service Platform. We will have live demo for several use cases. We will also present some sensors we can provide, all already available in standard libraries in our platform.

France | www.iothink-solutions.com | Julien DALMASSO | julien.dalmasso@iothink-solutions.com

28 CODEA s.r.o.

Device maker

We design and produce Sigfox units for remote reading of values necessary to solve clients solutions. Custom design and production of SIGFOX IoT communication units, based on SIGFOX certified RF modules, for various types of water and heat meters.

Czech Republic | www.codea.cz | Petr Silhan | codea.petr@volny.cz

28 Solidus Tech s.r.o.

Electronic manufacturing services

IoT sensorrs, RFID reader, security GW, smartmetering, soilmoisture sensor, segments thermomeeters, smart agricultural sensors

Czech Republic | www.solidustech.cz | Petr Foltyn | petr.foltyn@solidustech.cz

Standard Exhibitor

29 Digital Matter

Device maker

Digital Matter is an innovative award winning Australian technology company that designs and develops embedded electronic solutions along with the software platforms required to manage and report asset activities and events.

South Africa www.digitalmatter.com

29 HC TECHNOLOGIES

Device maker

HC Technologies is the new name that INET COUNTERS will use from 2018. So, HC Technologies has the same devices as INET Counters and new devices we are now making. We are now changing our name since we have now a new VAT and new company name.

Spain www.hc-technologies.com Javier Herrero javier.herrero@hc-technologies.com

30 Enerbrain

Solution provider

Enerbrain has developed energy retrofit solutions for large buildings to save energy and improve comfort, in a few days and without modifying HVAC systems. Enerbrain is your innovation partner for a sustainable future.

Italy www.enerbrain.com Debora Del Vecchio dd@enerbrain.com

30 Telecom Design

Device maker

For the last 13 years, Vitalbase has been developing, industrializing and commercializing innovative solutions for aging well. Our offers are organized into 2 products : The Vibby OAK and The Ikarya Watch.

France www.vitalbase.fr Boris Dumontet bdumontet@telecomdesign.fr

31 GlobalSat

Solution provider

GlobalSat provides customization services of electronic designs, system integration and software development to meet customer specific needs.

Taiwan www.globalsat.com.tw Chihyuan Hsu jackal.hsu@globalsat.com.tw

31 LITE-ON Technology Corporation

Module manufacturer

LITE-ON communication module business group focuses on the production of various wireless communication modules

Taiwan www.liteon.com Dennis Chiou dennis.chiou@liteon.com

32 Flexwave

Solution provider

Solar box - a box to provide 10 years power for Sigfox sensor device, such as environmental sensor, wildfire detector, smart agriculture, water detector, ect.

Taiwan | www.flexwave.com.tw | Min-Hung Hsu | mh.hsu@flexwave.com.tw

32 MIGHT ELECTRONIC CO., LTD. (MIGHTY NET)

Electronic manufacturing services

Mighty Net –Your Best Partner for Hardware Innovation. “Mighty Net” is pronounced like “Magnet”, meaning a magnetic net that continuously attracts hardware innovations. With over 30-years experience and facilities both in Taiwan and China.

Taiwan | www.mightynet.co | Maggie Zhuang | maggie35@might.com

33 AirTracker

Electronic manufacturing services

AirTracker is a creator of an environmental sensor array that captures key air quality metrics (particles, gases and noise pollution) and transmits them to the cloud using the Sigfox network. Solar powered and compact it can be installed almost anywhere.

Australia | www.airtracker.io | Michal Reznik | info@air-tracker.com

33 Aristotle Enterprises Inc.

Antenna designer

Aristotle offers comprehensive portfolio for Sigfox antenna , include embedded PCB/ FPC ,Dipole and outdoor antennas. Our custom antennas can solve specific design challenges and requirements to provide an ideal antenna solution for any application.

Taiwan | www.aristotle.com.tw | Jingjing Hu | jing@aristotle.com.tw

34 1.REX SERVICES, a.s.

IoT Platform Provider

REX - Universal IoT platform. Control various devices from different manufacturers in one environment. Different types of communication (SMS, notification, e-mail). Android and iOS app, web for PC. White label ready. Various reports, API and multilingual.

Czech Republic | www.rex.eu | Petr Dudacek | sigfoxcon@rex.eu

34 Z#BRE

Solution provider

Z#BRE is providing solutions to help service providers to operate and connect to space tenants. - Intervention management - Space management - Delivery management

France | www.zbre.io | Côme Pinchart | c.pinchart@zbre.io

Standard Exhibitor

35 4MOD Technology

Device maker

We are a design & engineering office pushing the limits of remote controls. From the blank page to the supply chain management, our teams focus on product differentiation, through design and functionalities.

France | www.4modtechnology.com | Romain Hué | romain.hue@4mod.fr

35 SAYME

Solution provider

SAYME is a technology maker that designs and manufactures IoT devices that enable innovative proprietary solutions to improve operational and service efficiency in IoT key markets: Smart-cities, Industry 4.0, logistics and customer service.

Spain | www.sayme.es | Marta Alonso | marta.alonso@sayme.io

36 inovasense s.r.o.

Device maker

Our sensor switches ordinary collection or private POST-BOX to smart. It gives owner information about the post-box occupancy, and it enables then to optimize collection process. It saves transport and labor cost, or it will just send you SMS after new letter is received.

Slovakia | www.inovasense.com | Vladimír Vician | vician@inovasense.com

36 JYSE

IoT Platform Provider

JYSE allows you to build web applications to display and monitor data coming from your connected objects and buildings, to locate and track your assets. Thanks to the JYSE Decoding Service, you can also create your payload decoder interactively.

France | www.jyse.io | Nicolas DENTANT | nicolas.dentant@jyse.io

37 Bumblebee-IoT b.v.

Solution provider

The most advanced IoT tracker ever!

Netherlands | bumblebee-iot.com | Debby Klijn Velderman | debby.klijnvelderman@bumblebee-iot.com

37 EMM spol. s r.o.

Security Expert

BikeGuard is an innovative anti-theft solution for tracking bicycles. It combines GPS, Bluetooth, accelerometer and SIGFOX technology. This combination provides the user with maintenance free device that protects the bike 24/7.

Slovakia | www.emm.sk | Jozef Cheben | cheben_jr@emm.sk

38 WISOL Co., LTD

Module manufacturer

Wisol is a specialized global leading company with both technology of RF components and wireless connectivity module solution. Wisol can provide a total RF solution such as SAW filter and various wireless connectivity modules.

South Korea | www.wisol.co.kr | Brown Lee | brown@wisol.co.kr

38 PiP IoT limited

IoT Platform Provider

PiP LevelSense.TM and PeopleSense.TM 'Device-as-a-Service' solutions are engineered for the most demanding Smart Cities infrastructure applications. Performance-proven use cases include water management, waste collection and public amenities monitoring.

New Zealand | www.pipiot.com | Nigel Sharplin | nigel@infact.co.nz

Open the Sigfox Connect App and start networking NOW!

Global
Star Village

Sigfox
CONNECT

Co-Assist

Co-assist has developed for elder people a mobile connected watch to launch alerts (panic button, fall detection and geofencing). Sigfox technology enables to launch alerts everywhere with 3 months of battery.

France www.co-assist.fr/en Pierre-Yves Champagne pierre-yves.champagne@co-assist.fr

EverySens

Everysens brings hassle-free logistics for leading industrial companies and freight forwarders. Our real-time tracking and optimization platform provides supply chain directors and operational staff complete visibility over their flows and relevant business analytics.

France www.everysens.com Valerie Demanne valerie.demanne@everysens.com

Nanolike

Nanolike® provides IoT monitoring solutions for Intermediate Bulk Container (IBC) users or manufacturers to get in real time the fill level and the geolocation. Come to our booth to see how it works, we will be glad to present it to you!

France www.nanolike.com Julien Fauchet julien.fauchet@nanolike.com

Sensatag

SENSATAG We are Sensatag and we offer low-cost IoT trackers to give your assets a voice. BEST IN CLASS The best Sigfox Class 0 tracker on the market. True plug & play. Generating data based on geolocation, temperature or movement.

Netherlands www.sensatag.com Ras Lalmy ras@sensatag.com

Simple Hardware

Simple Hardware is a Czech IoT startup company delivering cool, cheap and reliable IoT devices with extra long battery life worldwide. These devices can be used and quickly integrated in the insurance, safety, Industry 4.0, Smart City, e-Agro, logistics and utility sectors.

Czech Republic simplehw.eu

HidnSeek

HidnSeek are dedicated to designing and building innovative solutions to enable remote tracking and asset management, empowering enterprises to improve their operational efficiency.

France www.hidnseek.fr Xavier Torres-Tuset Xavier.torres-tuset@hidnseek.fr

It´s Time to Monitor Your **IoT Infrastructure** With PRTG & Sigfox

PAESSLER
PRTG NETWORK MONITOR

PRTG monitors your whole IT and IoT Infrastructure 24/7, and alerts you to problems before users even notice.

Whether you want to measure the air quality in your city or follow the route of your containers: Sigfox global LPWA Network and PRTG Network Monitor help you to monitor and visualize environmental data in real-time.

PRTG.Network.Monitor

SKIPLY

Skiply leverages the power of IoT and AI to collect and analyse millions of customer feedbacks in real-time. Our satisfaction terminals and action buttons help you to better drive your Customer relationships and improve operational performance.

France | www.skiply.eu | Jérôme Chambard | jerome@skiply.org

BlackBox Solutions

Blackbox provides an end-to-end solution for monitoring the logistic supply chain consisting of: Low Power Hardware / Mobile Connectivity / Backend-Services / IT-Integration Interfaces. Connected device life cycle management as SaaS for industrial cases in different business.

Germany | bx-s.de | Dr. Ing. Wolfgang Vogl | w.vogl@bx-s.de

Capturs

Watch over your teams and assets! Capturs provides end-to-end solutions for tracking people and goods with ultra-high autonomy / very low costs. Our off-the-shelf solutions will suit logistics, vehicle fleets, access control, workers, maritime, outdoor sport

France | capturs.com | Arnaud Loulier | arnaud.loulier@capturs.com

Clever Farm a.s.

CleverFarm is farm management platform that integrates available innovations in agriculture sector. We are the first bringing IoT sensors to the farming industry. Thanks to the Sigfox IoT technology we inform farmers what is going on in their field or granary.

Czech Republic | www.cleverfarm.cz | Adam Zlotý | adam.zloty@cleverfarm.cz

Eron Energy Pvt. Ltd.

Chipwire (Eron Energy) is an IoT device developer, manufacturer & solutions implementation company. Our core strength includes Next Generation Hardware Development, RF communications, Machine Learning and Platform Solution Implementation.

India | chipwire.co.in | AMIT GUPTA | amit.gupta@eronenergy.com

Flowdaq

Flowdaq is a Dublin based company which provides solutions to the Water Cooler industry. Our first product, 'ADAM' feeds real-time bottle usage data from any bottled watercooler at any location directly into the distributor's distribution and planning systems.

Ireland | www.flowdaq.com | Dave Reid | dave@flowdaq.com

Tailor your **IoT cloud solution** to your needs!

BFOMOBILITY
Development services for e-mobility

BFO_connect CLOUD solutions, tailored to what your business really needs – maximum flexibility, scalability, reliability whilst being highly secure!

BFO_connect

Fox Tech

Fox-Tech Co. provides easy to use IoT solutions. Our solution catalog that includes asset tracking devices (APOLO), smart bicycle lock (OTO HUNTER), temperature and humidity solution (TEMPHAWK). We specialize in bringing you plug and play solution that is Sigfox enabled.

Taiwan | www.fox-tech.co | Polly Chang | polly@fox-tech.co

Invoxia

Launched the new generation of GPS trackers that are perfect for vehicles and valuables. Now launching in Europe our Pet GPS Tracker, the lightest pet tracker with the longest battery life. We also offer a dedicated web app.

France | invoxia.com

IOT Solutions

Internet of Things solution designer and provider. State of the art IoT devices producer. We answer your company's needs with IoT products developed from scratch by using the latest Sigfox compatible technologies.

Malta | iotsolutions.com.mt

Javelot

Javelot is the first connected device to monitor grain temperature in farm storage. Once the sensors are planted in the grain, you can follow, from the application on your mobile, the temperature of the grain at any time and have the most efficient control on the ventilation.

France | javelot.ag | Aymeric Guillou | Aymeric@javelot.ag

Logic26 GmBH

logic26' activity trackers „MaxiTrack" and „MaxiTrack+" are offering their customers a GPS-based positioning solution with sensors for recording temperature, operating hours, acceleration and position. In combination with our web portal, various use cases can be displayed

Germany | logic26.com | Janis Faltmann | janis.faltmann@logic26.com

MoiZ

MOÏZ offers solutions to the challenge of energy autonomy of IOT sensors, thanks to a disruptive and patented energy harvesting technology based on silicon MEMS.Battery or power supply can be replaced by MOÏZ thermogenerators, using Seebeck effect.

France | moiz-eh.com | Thierry GARRET | thierry.garret@moiz-eh.com

Omicron Ingenieria SAS

Omicron offers IoT solutions for smart city, smart agro, smart industry, our multisensor technology can connect any sensor to any IoT platform. Solutions that save costs, generate efficiency, protect the environment and improve the quality of life.

Columbia | omicroning.co

Sensohive

Sensohive delivers elegant state-of-the-art sensors to a wide range of industries. Our end-to-end solution Maturix™ provides real-time monitoring of concrete, which helps construction firms optimize their workflows and documentation (ROI less than 100 days).

Denmark | www.sensohive.com | Rasmus Uhre | ru@sensohive.com

Sensolus

Same Assets More Value - an all-in-one asset management solution to monitor and optimize your supply chain, logistics and non-powered equipment. Powered with industrial trackers, all regions certified on single device, including 4 geo-location technologies.

Belgium | www.sensolus.com | Kristoff Van Rattinghe | kristoff@sensolus.com

SI2C

SI2C is a Design House for IoT network Sigfox based in Slovakia. We provide IoT devices, characterized by low price, long battery life and wide applicability. We offer parking solution - Parking Pill and logistics and utility security device – Electronic Seal.

Slovakia | www.si2c.eu | Michal Amon | Michal.Amon@si2c.eu

STEAM.de

S-T-E-A-M is a design house based nearby Munich. Its team is expert in embedded system design and IT servicing. Deep knowledge in RF and Low Power application design S-T-E-A-M is offering a Sigfox module ready to connect sensor nodes to IoT world.

Germany | www.S-T-E-A-M.de | Mr. Stefan Thiel | info@s-t-e-a-m.de

STIMIO

STIMIO designs and produces industrial IoT solutions that connect the assets of our customers. Thanks to our pre-industrialized platforms, STIMIO makes IoT adoption straightforward, from Proof of Concept to industrial deployment.

France | stimio.fr | Laurent Cohen | laurent.cohen@stimio.fr

The Green Flux

THE GREEN FLUX operate GPS Packaging (Pallets, Box, Rolls, Containers…) in an innovate, clear and all inclusive offer.We're able to custom packaging for each customer need.All packaging are connected to the cloud.

France | www.thegreenflux.com | Patrick KERMAIDIC | pk@thegreenflux.com

Ubigreen

Ubigreen Smart Desk is an all in-one solution (sensors, remote reading through Sigfox network and SaaS software) for analysing workplace usage. Thanks to wireless sensors and to a full web software, Ubigreen does all the analytics for you.

France | ubigreen.com | Julien Meriaudeau | contact@ubigreen.com

UBISCALE

We introduce Ubi.cloud, an unique cloud-based solution to outperform outdoor(GPS)/ indoor(WiFi) geolocation. Based on processing offload, Ubi.cloud makes small & long-life global trackers a reality.

France | ubiscale.com | Samuel Ryckewaert | contact@ubiscale.com

Verse Technology

Enabling Access to the Industrial Digital World. We design and implement holistic Industrial IoT solutions for the following industries: Manufacturing, Logistics & Supply Chain, Agriculture, Oil & Gas, Livestock, Aquaculture, Smart Cities.

Mexico | www.verse-technology.com | Adrián Martínez | adrian@verse-technology.com

Wisebatt

Wisebatt is a simulation tool where electronics engineers can collaborate and innovate faster, just like Github, but for hardware. With our tool, engineers can build virtual prototypes and collaborate to make the optimal choice between cost, battery life and performance.

France | wisebatt.com | Wilfried Dron | wilfried.dron@wisebatt.com
